- ★ 21 million internal queries and 36 million external queries per year
- ★ Public users from over 200 countries

## User-friendly

The previous two applications (the internal and the public versions) have been merged to facilitate terminology management and consultation. A fully revamped platform awaits users, who will have different access rights according to their profile.

## Responsive

Consult IATE on any device – smartphone, tablet or desktop.

## Accessible

The multilingual database offers everyone equal access to information and functionalities.

## Interoperable

Using the latest technology, the new version of IATE retrieves data from other EU tools (EU legislation repository, EuroVoc domain classification, etc.). Furthermore, the new version of IATE can be easily integrated with third-party tools (Search API).
